Subject: FW: 1/5/00 DMMO meeting

Hi all,

Just so everybody is prepared for Wednesday's DMMO meeting, you should all have the following for the Levin project:

SAP dated 8/17/99 with revised sample points
dated 9/3/99

Report dated 8/16/99 (exploratory testing-- not per the
SAP)

Letter dated 10/8/99 additional info from Mike Cheney to
DMMO

Fax letter dated 12/17/99 from Mike Cheney to David
and 4 or 5 emails. Basically, Mike wants to Dredge in Berth A and do
nothing to Berth B. He is now asking if his SAP is sufficient to test or if
there are some changes necessary. He would like to sample and test the
material from Berth A and the material from Time Oil (a separate project) at
the same time.

Call me if you do not have all of the puzzle pieces.

Larry Fade
USACE-SPN-OR-DM (DMMO)

I have faxed out the letter from Mike Cheney and you should have the SAP and
the other test results that Mike provided. If you don't, please let me
know.

David
